Physical Description 1

DESCRIPTION:

Set close to the street, it is a single storey timber building clad in weatherboard. The double gable roof and convex verandah are clad in corrugated iron. It is asymmetrical design with two gable-ends forming the front elevation. In the centre of the gable-ends is a double hung window and the entrance door in between these. The verandah appears to have been added about 1859. On the east side there appears to be a window with original joinery. The only decorative elements are the two matching turned wood finials at the apex of the gables.
