DESCRIPTION

14 Frederick Street is a timber Bungalow residence retaining a high degree of integrity. The house has an asymmetrical facade with a prominent gable to the front and another gable behind, and a large recently tiled roof. Notable details include the small timber b/verandah posts supported by brick, render, and stucco piers and the original verandah balustrade and matching front fence. The prominent gable feature a tripartite window with lead light glazing, and the infill panel has a half timbered effect, as well as timber imitation wall shingle and wide barge boards. The same details are found in the gable behind, although the window is different with four glazing panes and a skillion hood. Concrete steps lead up to the concrete verandah.
