Physical Description 1

This Early Victorian double fronted cottage has a symmetrical facade constructed of weatherboards, and a simple gable roof. The corrugated iron skillion verandah is hipped in form. Its simple timber posts, fence and timber valance are appropriate to the style of the building, and appear to be substantially original timbers. Typical double hung sash windows are positioned on either side of the entrance with highlight above. The door is a later alteration. A rendered flat top chimney protrudes from the roof. The building is sited with the verandah to the footpath, has a high degree of integrity and forms part of the residential streetscape.
