Statement of Significance

Last updated on -

Outstanding size

This Marri gum (*Corymbia calophylla*) is significant due to its outstanding size, specifically its canopy spread and is of a considerable size for its age and location. It has been identified as one of the largest trees of this type in the area and is believed to have been planted in the 1950 -60s by the Righetti family; proprietors of the 'Horsham White Hart Hotel' at that time

..
