Statement of Significance

Last updated on - May 11, 1999

What is significant?

The Cape Otway Lightstation was constructed in 1846-48 following the recommendation of the 1845 New South Wales Select Committee on Lighthouses in response to a number of shipping disasters in Bass Strait. The site was personally selected by Superintendent Charles Joseph La Trobe and the lighthouse was designed by NSW government architect Mortimer Lewis. The lighthouse was built of nearby Parker River sandstone and was altered to accommodate a Chance Bros lantern in 1891. The stone keepers' quarters date from 1857-58, probably to the design of Victorian Public Works Department architect Charles Mapstone, and replace an earlier structure. The two roomed assistant keepers' quarters of c.1848 were later incorporated into the store and workshop building. The signal station was built in 1859 and was a link in the first telegraph connection across Bass Strait. Most of the early buildings, with the exception of the signal station, are in very good condition and have had only slight alteration. The lighthouse no longer operates but retains all its equipment. Also related to the site are a cemetery and the ruinous remains of some Second World War military buildings.

How is it significant?

Cape Otway Lightstation is of historical, architectural and social importance to the State of Victoria.

Why is it significant?

Cape Otway Lightstation is historically important because the lighthouse is the oldest surviving lighthouse on the Australian mainland. The lightstation has, since 1848, been a crucially important link in the national system of navigation aids which began with the Macquarie light in 1819. It is also historically important as the usual Australian landfall for ships coming from Europe. The signal station is important for its key role in the relaying of news from Europe to Melbourne before the construction of the overland telegraph.

Cape Otway Lightstation is architecturally important as a grouping early lighthouse buildings. The lighthouse is important as a rare Victorian example of the work of NSW government architect Mortimer Lewis. The keepers'

quarters are important as an intact group of lightstation residences and for their associations with Charles Maplestone who designed the similar and contemporary quarters at Cape Schanck, Wilsons Promontory and Gabo Island and which together form the best series of lightstation residences in Victoria. The signal station is important as a fine and rare example of a building type.

Cape Otway Lightstation is socially important as a manifestation of the remote yet responsible lifestyle of the lighthouse keepers and their families. The lightstation was a crucially important outpost which provided a dependable link to the outside world for mariners and the surrounding community. The cemetery, in which are interred the remains of both lightkeepers and their families and victims of marine accidents is an important manifestation of the former isolation of the site.

Permit Exemptions

General Conditions:
1. All exempted alterations are to be planned and carried out in a manner which prevents damage to the fabric of the registered place or object.
2. Should it become apparent during further inspection or the carrying out of alterations that original or previously hidden or inaccessible details of the place or object are revealed which relate to the significance of the place or object, then the exemption covering such alteration shall cease and the Executive Director shall be notified as soon as possible.
3. If there is a conservation policy and plan approved by the Executive Director, all works shall be in accordance with it.
4. Nothing in this declaration prevents the Executive Director from amending or rescinding all or any of the permit exemptions.
Nothing in this declaration exempts owners or their agents from the responsibility to seek relevant planning or building permits from the responsible authority where applicable.
No permits are required for works which are in accord with the conservation management plan prepared by Clive Lucas, Stapleton and Partners Pty Ltd for Australian Maritime Safety Authority in May 1994 (as amended by Ivar Nelsen in August 1996).

Extent of Registration

NOTICE OF REGISTRATION

As Executive Director for the purpose of the Heritage Act, I give notice under section 46 that the Victorian Heritage Register is amended by including the Heritage Register Number 1222 in the category described as a Heritage Place:

Cape Otway Lightstation, Otway Lighthouse Road, Cape Otway, Colac Otway Shire.

Extent:

1. All of the specified buildings forming part of the Cape Otway Lightstation and marked as follows on Diagram 601019 held by the Executive Director of the Heritage Council:

- B-1 Lighthouse
- B-2 Head Keeper's Quarters
- B-3 Assistant Keepers' Quarters
- B-4 Store/Workshop
- B-5 Signal Station.

2. All of the land, including the cemetery, marked L-1 and L-2 on Diagram 601019 held by the Executive Director of the Heritage Council.

Dated 7 November 1996

RAY TONKIN

Executive Director

[*Victoria Government Gazette* No. G46 21 November 1996 p.3004]

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
