Statement of Significance

Last updated on -

Horticultural value
Particularly old
Outstanding size

This group of four River Red Gums (*Eucalyptus camaldulensis*) is located on the western side of the oval. The trees make an outstanding contribution to the surrounding landscape and are fine examples of the species. The most southerly of the four is old and gnarled with extended branches and great form. They are likely to be remnants of an original population and have high aesthetic qualities.

Measurements: 2012 of largest of four trees
Spread (m): 11.88
Girth (m): 3.11
Height (m): 21.0
Estimated Age (yrs): 100+
Condition: Good

Access: Unrestricted
Classified: 24/09/2012

Other Names River red Gum,
Hermes Number 191404
Property Number
