National Trust

Statement of Significance

Last updated on -

Contribution to landscape of historic garden
Particularly old
Outstanding size
Outstanding example of species

The group of 7, in a line extending for 70 metres, is planted on the Linaker Lawn at Mayday Hills
The group of 6, in a line extending for 50 metres, is planted in the Pines entrance gardens.
The group of 12, in a line extending for 60 metres, is planted on the front lawn of the Pines building.
Mayday Hills Hospital was developed as the Beechworth Lunatic Asylum in 1864-67 with gardens and grounds laid out at this time and rejuvenated since 1913.
The collection of mature trees and plants is exceptional with many dating from the mid to late nineteenth century

and others from the post 1913 work of Hugh Linaker and later curators. The efforts of grounds staff over the decades has created a succession plan that extends beyond the lifespan of the 19th century plantings. It has become one of the top 5 collections of trees in Victoria (*John Hawker*)

Measurements: 11/02/2013

Height (m): 35

Canopy Spread (m):

Girth (m):

Estimated Age (yrs): 100

Condition: Good

Access: Unrestricted

Classified: 05/03/2014

Other Names Canary Island Pine,

Hermes Number 196575

Property Number
