## **Memorial Window Inscription**

A.I.F.

## **Memorial Window Description & History**

This simple statement was in marked contrast to the highly figurative four-light east window installed in 1920 to commemorate the men of the First World War. The window paid tribute to Second World War servicemen with the badge of the Australian Military Forces surrounded by a laurel wreath, surmounted with a golden crown, signifying victory. The emblem was set against a simple diamond quarry background.
