
Cornocarpus laevigatus

Location

34 Gnotuk Lane CAMPERDOWN, CORANGAMITE SHIRE

Municipality

CORANGAMITE SHIRE

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on -

This Karaka is significant for aesthetic, historic and rarity reasons at Regional level. The Karaka is an evergreen New Zealand native tree that is rarely seen growing in Victoria. It is very hardy on coastal sites which makes it particularly suitable for the salty winds that come off nearby Lake Gnotuk. It provides a contribution to the landscape, forming part of the historic Gnotuk garden.

Measurements: 23/04/2015

Girth (m): 1.85

Spead (m): E-W8 N-S 6.1
