Statement of Significance

Last updated on - January 1, 1900

STATEMENT OF CULTURAL HERITAGE SIGNIFICANCE:

What is significant?

This tree is believed to be a localised remnant of Yellow gum, and is one of the largest in Victoria.

How is it significant?

This Yellow gum is significant for aesthetic and scientific reasons at Regional level.

Why is it significant?

This tree is outstanding for its size with a height of 24 m and canopy spread between 20-24m. It is a particularly good example of the species. The tree is in good health and makes a significant contribution to the surrounding landscape. It is one of the largest Yellow gums on the register.
