Statement of Significance

Last updated on - January 1, 1900

What is significant?

This *Afrocarpus falcatus* (Yellow-wood) is located in the grounds of Mandeville Hall, one of the best examples of the fine town houses built in fashionable Toorak during the late 1870s and early 1880s for Victoria's wealthy pastoralists, business and professional men and their families. The house's grandeur is enhanced by the remaining parts of the once-extensive gardens, of which this Yellow wood forms a part. The tree is located to the north of the front face of the residence.

How is it significant?

This *Afrocarpus falcatus* (Yellow-wood) is significant for scientific, social and historic reasons at State level.

Why is it significant?

This *Afrocarpus falcatus* (Yellow-wood) makes a significant contribution to the surrounding landscape as part of the historic garden of Mandeville Hall. It is outstanding for its height at 20m, spread of 15-16m and circumference of 2.61m. It is an outstanding example of the species with excellent form. It is also rare as a male example of the species which is unusual. There are another examples of this species on the register at Rosalind Park in Bendigo (T11386), Drusilla in Mount Macedon (T11656) and in High Street Gardens in Malvern. (T11835).

Condition: Good
