Construction dates 1916,

Hermes Number 206836

Property Number

Integrity

425B Victoria Street has its original exposed face brick painted, yet overall retains high integrity.

Physical Conditions

425B Victoria Street (S2) is in fair condition, with sound brickwork but heavily weathered timber elements, including eaves boards and louvres, and roofing iron showing striped rusting typical of sheets being laid alternately with zinc coating facing upwards and downwards, which was a common method to use as little sheeting as possible. Where evident, the roof plumbing is in poor condition and appears disconnected.

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
