DESCRIPTION

18 Candover Street consists of a group of timber buildings on a large site. They are mostly clad in weatherboards and have hipped roofs clad in corrugated iron. Most of the original decorations which was added circa 1915 and the front gate and the entrance pergola above are more typical of a 1920's house. The front fence is a nineteenth century style which uses timber posts and cast iron infill with a hedge behind.
