
Pin Oak

Manningham Heritage
Garden & Significant
Tree Study 2006

Location

47 Boyd Street (Outside) DONCASTER, Manningham City

Municipality

MANNINGHAM CITY

Level of significance

Not Recommended

Heritage Listing

Manningham City

Statement of Significance

Last updated on -

The *Quercus palustris* located at Boyd Street, Doncaster is of local significance for being a good specimen located in a prominent position, being of good size, with high aesthetic value.

Other Names Quercus palustris,
Hermes Number 22815
Property Number

Physical Conditions

Public land

Melway Ref: 47D10

Setting/Position: Positioned in nature strip outside 47 Boyd Street, on a prominent corner.

No. of trees: 1

Height: 25m

Canopy Spread (m) E-W: 15m

N-S: 19m

DBH: 715mm

Approx. Age of Tree: 50-60 years (Mature)

TPZ: 7.4m **CRZ:** 3.0m

Category of Significance:

Location or context

Outstanding size

Aesthetic value

Level of Significance: Local

History: Original street tree planting from time of subdivision

Health:

Dead wood

Other/Notes: Tree appeared to be in good health at the time of inspection.

Health Rating: 2

Threats/Risks to Tree: Tree is susceptible to compaction, trunk damage from lawnmowers and root severance involved with development and service maintenance. Tree is also susceptible to power line clearing on eastern side of canopy.

Hazards/Risks:

Co-dominant branches

V-crotched

Other

Other/Notes: Tree is v-crotched and will eventually require cabling. A small wound exists at the base of the trunk on the tree's south-west side, and the tree is starting to lift the footpath on the northern side; although it has not cracked the concrete. The form of the tree is slightly irregular due to the v-crotched trunk, however it should be noted that there are no powerlines directly interfering with the growth of the canopy, allowing good size and form to develop. Powerlines are present some distance to the trees east and have not impacted on initial form development, although they will prevent full expansion of the trees canopy in this direction.

Structure Rating: 4

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
