Statement of Significance

Last updated on - April 27, 2007

This site has been assessed as having moderate scientific significance due to the potential for sub-surface deposits. It has been assessed as having local significance as granite foundations are only an occasional feature of the local landscape.

Interpretation of Site Structural foundations - nature of structure is unclear. Approx 10m x 40m. Small domestic house site? Pines indicate that it was probably more than a farm outbuilding.
