Statement of Significance

Last updated on -

3 - 5 Mercer Road are of state significance as an early example of the Jacobean/Free Style in Victoria. They form an unusual pair of terrace houses built in an architectural style not normally associated with this building form.

Heritage Study/Consultant	Stonnington - City of Malvern Heritage Study, Nigel Lewis and Richard Aitken P/L, 1992;
Construction dates	1890,
Other Names	3 & 5 Mercer Road, Armadale,
Hermes Number	31415
Property Number	

Physical Description 1

An unusual pair of terrace houses built in an architectural style not normally associated with this building form. The pediment parapets have an unusual Jacobean/Free Style character and the arcaded balconies on both levels are unusual in the irregularity of the archway openings. The slate roof, terracotta ridging and brick chimneys with rendered bands fully identify the architectural era as does the turned timber balustrades on the upper level. The building retains a section of original fence at 3 Mercer Road and is basically intact otherwise, except for the painting of the brick work and cement render thus losing much of the original design expression

Local Historical Themes

8.4.2 Functional, eccentric and theatrical - experimentation and innovation in architecture 3.3.3 Speculation and land boomers - subdivision from 1880s onwards 8.2.2 'Country in the city' - suburban development in Malvern before 1920

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
