Statement of Significance

Last updated on - March 30, 2000

What is significant?

Prominent sculptor Inge King and well known artist and print maker Grahame King designed their own house in conjunction with noted architect Robin Boyd in 1951. They and erected it during the next few years. The original two storey flat roofed timber post and beam structure has a rubble stone wall facing the street. A sculpture studio for Inge was later constructed below the original structure and a large extension at the rear serves as Grahame's studio. An open pergola on the south side subsequently became a music room. The Kings still occupy the house and the garden contains many of Inge's sculptures.

How is it significant?

The Grahame and Inge King house is of historical and architectural importance to the State of Victoria.

Why is it significant?

It is of historical importance as the long-time home and workplace of Inge King, sculptor, and her husband, Grahame, painter, industrial designer and printmaker. Inge King, who was born in Berlin, is one of Australia's foremost modern sculptors. Her artistic achievements are reflected in a long list of exhibitions, prizes, commissions and honours bestowed by her adopted country and its institutions. Her work is represented in all of Australia's major cities and many public, commercial and private collections. Grahame King has played a leading part in helping to raise the standards of printmaking in Melbourne and has made a significant contribution to the arts through the Print Council of Australia. He has often exhibited jointly with his wife, and his works are represented in all Australian state galleries.

It is of architectural importance as an early work of Robin Boyd, architect, gifted writer, teacher and social commentator. Boyd became the leading Australian propagandist for the International Modern Movement in architecture, and was noted for his innovative domestic buildings. The King house is one of a group of about twenty small low-budget houses designed during Boyd's experimental, style-forming period (1949-52). Like the other houses constructed during this period, the King house demonstrates Boyd's central concept for the relationship between internal and external house and site, his use of extensive glazing, modular grid construction and eagerness to adopt new materials and methods.

Permit Exemptions

General Exemptions:

General exemptions apply to all places and objects included in the Victorian Heritage Register (VHR). General exemptions have been designed to allow everyday activities, maintenance and changes to your property, which don't harm its cultural heritage significance, to proceed without the need to obtain approvals under the Heritage Act 2017.

Places of worship: In some circumstances, you can alter a place of worship to accommodate religious practices without a permit, but you must **notify** the Executive Director of Heritage Victoria before you start the works or activities at least 20 business days before the works or activities are to commence.

Subdivision/consolidation: Permit exemptions exist for some subdivisions and consolidations. If the subdivision or consolidation is in accordance with a planning permit granted under Part 4 of the *Planning and Environment Act 1987* and the application for the planning permit was referred to the Executive Director of Heritage Victoria as a determining referral authority, a permit is not required.

Specific exemptions may also apply to your registered place or object. If applicable, these are listed below.

Specific exemptions are tailored to the conservation and management needs of an individual registered place or object and set out works and activities that are exempt from the requirements of a permit. Specific exemptions prevail if they conflict with general exemptions.

Find out more about heritage permit exemptions [here](#).

Specific Exemptions:

EXEMPTIONS FROM PERMITS:

INTERIOR DECORATIVE SCHEMES

Interior painting and wall-papering to walls and ceilings, provided the preparation work does not remove evidence of the building's original paint or other decorative scheme.

Removal of existing carpets / flexible floor coverings eg vinyl and installation of new carpets and flexible floor coverings.

Installation of curtain tracks, rods, blinds and other window dressings.

REFURBISHMENT OF BATHROOMS, TOILETS, KITCHENS

Refurbishment of bathroom /toilet / ensuites including removal of existing sanitary fixtures and associated piping, mirrors, and wall and floor coverings, and installation of new fixtures, and wall and floor coverings.
