Physical Description 1

"This building dates from 1953 but has more recently been extensively modified. It was built for J. O'Connell, an engineer. Despite its relatively recent construction, it is a further example of the work of Arnaud Wright, the original developer of Huntingfield Road. The building is the only single-storey structure within the review area and appears to have been modified through the addition of a parapet and plain rendering to produce an exterior that more closely resembles others in the street."

This place/object may be included in the Victorian Heritage Register pursuant to the Heritage Act 2017. Check the Victorian Heritage Database, selecting 'Heritage Victoria' as the place source.
