Statement of Significance

Last updated on - October 7, 2004

A thoroughly conventional house for its time, it is interesting for the wartime date of construction and as a complement to the old vicarage. It is substantially intact and is of local significance for its association with the significant Holy Trinity complex.

Physical Description 1

Holy Trinity Second Vicarage was built in 1941 to the design of Frank Heath, architect, and was built by CH Stapleton.

The Vicarage is part of the significant Holy Trinity complex, which includes the church, parish hall and school, and the second Vicarage built in 1941 (refer to separate citations in this Study)
