Physical Description 1

Among the township buildings surviving from the late Victorian era, Berwick Primary School (No. 40) was established on its present site 1869-70. The original one-room school of that era remains.

Today the original single-room school building is used as a staff room. There have been several alterations including rendering of the brick walls, replacement of windows and re-cladding of the roof with the installation of roof vents along the ridge. The circular wall vent is intact, and the building overall is comparable in form to Harkaway Primary School.

Half-timbered gable ends with curved eaves brackets and window triplets are typical features of the 1920s additions and matching alterations to windows in the earlier sections were probably installed at this time.

Berwick Primary School is located on approximately 1.62 hectares of land.
