& Flats

Location

13 Studley Avenue,, KEW VIC 3101 - Property No B6213

Municipality

BOROONDARA CITY

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - May 6, 2005

Built in 1966 and designed by eminent Australian architect and author Robin Boyd of the firm Romberg and Boyd, the Lawrence House and Flats are architecturally significant, at a regional level, as a mature example of his structural pier and infill manner, one of several design themes which appeal in Boyd's distinguished repertoire of Melbourne houses of the 1950s and 1960s. The complex of the house and two flats is also remarkable for the graphic expression of its constituent parts, a composition of four free-standing rectangular boxes (one a carport) elegantly capped by floating flat roofs with dark recessed facias and all connected by a covered walkway that forms a spine down the block.
