B7054 Railway Cartway
Newport

Location

Champion Road,, NEWPORT VIC 3015 - Property No B7054

Municipality

HOBSONS BAY CITY

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - April 23, 2007

The 1924 Fitzroy weighbridge is of historical, scientific (technical), and social (educational potential) significance at the regional level because it demonstrates weighbridge technology that was 'state of the art' in the first decade of the twentieth century and remained in use on the Victorian Railways for about 80 years.

Although removed from its original context and without its original cabin or weighbridge pit, it has the potential to be restored to working order as a museum exhibit designed to allow the workings of the normally hidden lever system and head components to be viewed in action.

Classified: 05/06/2000

File Note: Originally located in the Fitzroy railway yards. All metal components removed and placed in storage at Newport Railway Workshops for the Australian Railway Historical Society railway museum.

Other Names Railway Cartway - North Fitzroy,

Hermes Number 65795
