Location

Milawa Road,, OXLEY VIC 3678 - Property No B3286

Municipality

WANGARATTA RURAL CITY

Level of significance

Local

Heritage Listing

National Trust

Statement of Significance

Last updated on - September 29, 2006

The Oxley Shire Hall was erected in 1875 by R Montgomery; the architect was A Rodgers. It then consisted of a main hall with two rear offices. The flanking side wings date from the 1890's. The single story brick structure is set well back from the road and its three elements (hall and side wings) have simple gable roof forms. The facade is composed of these three gabled forms with semi-circular arched openings.

This is a notable example of a small provincial shire hall. The triple gable composition gives an interesting form and the distinctive colour of the local bricks is notable. The three parts of the building are neatly articulated by roof forms and different mouldings around the openings. The intact quality of the facade is noteworthy. The hall is an essential feature of Oxley and is a landmark along the Milawa Road.

The building is intact and in good structural condition.
