Statement of Significance

Last updated on - June 16, 2008

Rare or localised

Two rare, naturally occurring white-flowering Victorian Waratahs that were first observed in 1986 and registered as 'Errinundra White' by Will Cramer in 1988. The two plants are the only known examples in the wild. Both trees exhibit typical upright growth. The first tree is multi-stemmed while the second has a single trunk (with 2 scars). The second tree is 10m further up the road.

The trees are located on River Road, on the east side of Little Yalmy Creek, Little Yalmy Creek Catchment.

Measurements: 20/10/1997
