## Statement of Significance

Last updated on - June 7, 2004

Rare or localised  
Outstanding example of species.

This tree is part of a stand growing as a single species on rocky ground. The tree displays good overall form and a prominent root system which is covered in moss. The finest example of the species observed on the Errinundra Plateau, this tree has a large single trunk and an outstanding rounded crown. The tree is located 75m from Coast Range Road and 20m east from Rooty Break Track, opposite the sign.

Measurements: 22/03/1997
