Location

"Glen Harrow", Cole Avenue,, BELGRAVE VIC 3160 - Property No T11122

Municipality

YARRA RANGES SHIRE

Level of significance

State

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 7, 2004

Horticultural Value:

A tree which is of horticultural or genetic value and could be an important source of propagating stock, including specimens that are particularly resistant to disease or exposure.

Location or Context:

A tree which occurs in a unique location or context and so provides a contribution to the landscape

Rare or Localised:

A tree of a species or variety that is rare or of very localised distribution.

Curious Growth Form:

A tree which exhibits a curious growth form or physical feature such as abnormal outgrowths, natural fusion of branches, severe lightning damage or unusually pruned forms.

One of a pair of remnant plantings by JC Cole in the 1870 - 1880s. A rare species, these two trees are the only examples of the species in cultivation in Victoria. This particular specimen has developed an unusual growth form with very tortuous branches - one measuring 17.6 m.

This tree is located S-W of the house, east of Clematis Creek.

Measurements: 22/10/1990

Spread (m): 14

Girth (m): multi-stemmed

Height (m): 10.1

Estimated Age (yrs): 90

Condition: Good

Access: Restricted

Classified: 25/10/1990

Other Names Chinquapin,

Hermes Number 70626

Property Number
