Statement of Significance

Last updated on - June 7, 2004

Horticultural Value:

A tree which is of horticultural or genetic value and could be an important source of propagating stock, including specimens that are particularly resistant to disease or exposure.

Rare or Localised:

A tree of a species or variety that is rare or of very localised distribution.

Aesthetic Value:

A tree of outstanding aesthetic significance.

Believed to have been planted in the early 1960s, this medium-sized tree is located in an arboretum of mixed exotic and native species. Cones present.

This tree is located above the carpark.
