St Kilda Botanical Gardens, Blessington Street,, ST KILDA VIC 3182 - Property No T11154

#### **Municipality**

PORT PHILLIP CITY

Level of significance

State

### **Heritage Listing**

National Trust

#### **Statement of Significance**

Last updated on - June 7, 2004

Horticultural Value:

A tree which is of horticultural or genetic value and could be an important source of propagating stock, including specimens that are particularly resistent to disease or exposure.

Location or Context: A tree which occurs in a unique location or context and so provides a contribution to the landscape.

Rare or Localised:

A tree of a species or variety that is rare or of very localised distribution.

This example of Indian Date is the only known example in cultivation outside the Royal Botanic Gardens (x4).

The tree is in excellent condition and forms part of an impressive collection of palms in the gardens.
