Statement of Significance

Last updated on - June 8, 2004

Rare or Localised:

A tree of a species or variety that is rare or of very localised distribution.

This tree is one of the finest examples of the species amongst a stand of about 200 trees on private property. About 1.2 ha has been fenced to protect about 15 trees. The measured tree is outside the enclosure, near the southern corner and east of a large *Alectryon aleifolius*. The stand is the most southerly occurrence of the species. The species is endangered and listed as a threatened taxon under the Flora & Fauna Act 1988.

This tree is located north of Kenley Road, Piambie, on a sand ridge.

Measurements: 08/04/1995

Spread (m): 12

Girth (m): 2.27 at 0.5m

Height (m): 11.75

Estimated Age (yrs): 100
