Statement of Significance

Last updated on - June 24, 2008

Outstanding size

This *Ceratonia siliqua* is a very large example of the species which was a popular planting in the 1800s and early 1900s. It is in good condition and is the largest known example of this species in Victoria. The tree, due to its size and location, makes a major contribution to the landscape.

Measurements: 15/02/1987

Spread (m): E-W 20.2; N-S 22.8
