National Trust

Statement of Significance

Last updated on - June 16, 2008

Rare or localised
Outstanding size

This attractive species is uncommon in cultivation in Victoria. It is notable for its small but numerous red-yellow fruit and small lobed leaves. This specimen is of an outstanding size and form, making an important contribution to the streetscape.

The tree was moved in 2008 to Victory Park adjacent to the old church site and severe storm damage in March 2010 has left the tree in poor condition.

Measurements: 28/03/1998
Spread (m): 10.8
Girth (m): 2.15
Height (m): 9
Estimated Age (yrs): 70
Condition: Good

Measurements: 04/2007
