Statement of Significance

Last updated on - July 16, 2004

Outstanding size

Outstanding example of species

The Sandbank is an attractive informal park on the banks of the Latrobe River, dating from the early nineteenth century. The tree is centrally located to the north of the pair of *Ulmus x hollandica* and south of a pair of *Platanus orientalis*. This tree is possibly one of the largest examples of the species known in Victoria. This tree is located at The Sandbank, LaTrobe River, Traralgon off Tyers Road.
