Statement of Significance

Last updated on - June 16, 2008

Contribution to the landscape
Outstanding size

The graceful *Polyscias sambucifolia*, commonly known as Elderberry Panax is found in forested coastal to sub-alpine regions in New South Wales, Victoria, the Australian Capital Territory and Queensland This is a stand of unusual, mature Elderberry Panax which rarely reach this size. These trees form the understorey of a stand of Eucalypts.
