Contribution to the landscape
Curious growth form

An outstanding example of the Hoop Pine (*Araucaria cunninghamii*). The tree has a lean to the east due to prevailing westerly winds. This is the only known example of this species in the Warrnambool/Port Fairy/Portland area. Hoop Pine occurs along the eastern coast in isolated pockets from northern NSW to Cape York

2004:Wind damage

2013: The tree is in poor condition. Most of the branches have either been denuded by wind or eaten by cockatoos.
