National Trust

Statement of Significance

Last updated on - March 2, 2023

What is significant?

Contribution to landscape of historic garden
Outstanding size
Aesthetic value
Outstanding example of species

This Moreton Bay Fig (*Ficus macrophylla*) is a very attractive specimen due primarily to its extensive canopy which touches the ground. The specimen is growing close to the edge of a particularly fine example of a bluestone HaHa Wall . The semi-circular structure is located in front of an old cottage to the rear of the Mansion. This Moreton Bay Fig (*Ficus macrophylla*) was first classified by the National Trust as Regionally significant in 1985. Since then the tree has grown to large proportions, and is a very significant landmark at Werribee Park. Its proportions and aesthetic beauty make it of State significance.

Measurements: 05/1985
Spread (m): 24.6
Girth (m): 6.75
Height (m): 15.3
Estimated Age (yrs): 110
Condition: Good

Measurements: 14/11/2011
Spread (m): N-S 32.2, E-W 30.3
Girth (m):12at 1.4m
Height (m): 16.8
Condition: Excellent

Measurements: 08/12/2022
Spread (m): N-S 37.6, E-W 37.6
Girth (m): 9.5
Height (m): 19.5
Condition: Excellent

Access: Unrestricted
Classified: 13/06/1985
Upgraded: 05/03/2012
