Statement of Significance

Last updated on - July 20, 2004

Contribution to the landscape of historic cemetery

This is a multi-trunked specimen of *Arbutus unedo* with a very large canopy spread. The tree is in a prominent position and balances the cemetery planting with an *Arbutus* located in each corner. The species is native to the Mediterranean region and western Europe, north to western France and Ireland.(hence its common name).
