Location

Aradale Hospital, Grano Street, ARARAT VIC 3377 - Property No T11276

Municipality

ARARAT RURAL CITY

Level of significance

State

Heritage Listing

National Trust

Statement of Significance

Last updated on - August 31, 2023

What is significant?

Outstanding example of species
Contribution to the landscape

This tree is located in the courtyard of the former Aradale Psychiatric Hospital, a site of State significance (Victorian Heritage Register: H1223). A fine well-shaped specimen displaying its typical narrow, compact crown. The tree is an important feature in the landscape. Two other fine specimens occur as Hascombe, Mount Macedon
The landscape design at Aradale is considered to have been influenced by Hugh Linaker, who was appointed landscape gardener to the Lunacy Department in 1912. The position required Linaker to give his expert advice at

any of the Hospitals for the Insane under the Department's care, which included Ararat, Beechworth, Ballarat and Yarra Bend.

This tree is significant at the State level for Social (contribution to landscape), Historic (Association with Institution) and Aesthetic (species/location) reasons.

Taxus baccata is a conifer native to western, central and southern Europe, northwest Africa, northern Iran and southwest Asia

The tree is located north west from the entrance in the main courtyard

Measurements: 15/06/1992

Spread (m): 2.5

Girth (m): 1.5 at grd

Height (m): 7.5

Estimated Age (yrs): 80

Condition: Good

Measurements: 04/2011

Spread (m): 3.5

Girth (m): 2

Height (m): 9

Estimated Age (yrs): 87

Condition: Good

Measurements: 15/11/2022

Spread (m): 8.00 (EW), 5.00 (NS)

Girth (m): 1.77

Height (m): 8.25

Estimated Age (yrs): 100

Condition: Good. Structure: good to fair. Some pruning is possibly required to contain some lateral growths.

Access: Unrestricted

Classified: 09/07/1992
