National Trust

Statement of Significance

Last updated on - June 9, 2004

Contribution to the landscape
Outstanding size

This Sitka Spruce is an attractive and well-formed specimen within a fine collection of conifers that were believed to have been planted 120 years ago (1982)

The Sitka Spruce (*Picea sitchensis*) is named after Sitka, Alaska although its natural range is along the coast of NW America. In the Northern Hemisphere it is grown commercially for timber and paper production.
