## Statement of Significance

Last updated on - June 9, 2004

Outstanding example of species

This is an outstanding tree, being the best example of the *Juniperus virginiana* known in cultivation in Victoria.(1988).This species of juniper is a slow growing native of eastern North America from southeastern Canada to the Gulf of Mexico The tree has a marked lean towards the west.  
Other examples are known at Sale and younger specimens at Bendigo (White Hills Garden) and Maryborough (Phillips Gardens).  
Located near statue of Mercury.
