Statement of Significance

Last updated on - June 16, 2008

Horticultural value
Rare or localised

Outstanding size
Outstanding example of species

These *Pinus taeda* are the only known examples in cultivation in Victoria (1984), and are part of the original planting which dates from 1875.

Pinus taeda is a native of southern and eastern parts of the U.S.A. (south New Jersey to south Arkansas and east Texas to south-west Tennessee). This species is a major timber tree in eastern USA.
