Location

Witt Street,, BENALLA VIC 3672 - Property No T11365

Municipality

BENALLA RURAL CITY

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 10, 2004

Curious growth form

This is an unusual example of tree fusion in which a limb from the western tree has grown into another now nearby dead tree. The crown of the western tree now forms the present crown. The limb has grown to a very large size and it is expected that eventually the trunk of the dead tree will decay.

E. camaldulensis is inextricably linked to watercourses within Australia, and is the widest natural distribution of any eucalyptus species.

The tree is located near corner of Racecourse Road.

Measurements: 13/10/1988

Spread (m): 20

Girth (m): 5

Height (m): 20

Estimated Age (yrs): 200

Condition: Fair

Access: Restricted

Classified: 17/11/1988

Other Names River Red Gum,

Hermes Number 70865

Property Number
