Location

RMB 5230 Terrets Road,, BENALLA VIC 3672 - Property No T11366

Municipality

BENALLA RURAL CITY

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 10, 2004

Curious growth form

This *Eucalyptus melliodora* is known as the 'Camel Tree' due to unusual growth form. A section of the trunk has grown along the ground, for about 2.9m and producing growth of 1.2m with a circumference of approximately 3m. This forms a shape that resembles a camel.

E. melliodora (Yellow Box) is widely distributed on the eastern plains and tablelands from western Victoria, NSW to southern Queensland and is considered to be the best native tree for honey production.

The tree is located on road reserve north-west of Benalla.

Measurements: 10/1981

Spread (m): 15.0

Girth (m): 3.0

Height (m): 17

Estimated Age (yrs): 80

Condition: Good

Measurements: 13/10/1988

Spread (m): 18.2

Girth (m): 2
