National Trust

Statement of Significance

Last updated on - June 16, 2008

Particularly old
Outstanding size

This pecan tree is a large well-formed specimen, and one of two, believed to have been planted by the original owners, the Oliver family, in 1880. *Carya illinoensis*, is a species of hickory, native to south-central North America. Pecan, like the fruit of all other members of the hickory genus, is not truly a nut.

Measurements: 15/03/1997
