Statement of Significance

Last updated on - June 10, 2004

Horticultural value
Historic cemetery
Outstanding size

An outstanding specimen forming part of a triangular pattern with *Pinus roxburghii* and *Araucaria heterophylla* in the centre of the cemetery. This specimen has very small cones, 1/3 to 1/4 normal size. *Pinus canariensis*, is a species native to the outer Canary Islands. Under warm conditions, this is one of the most drought-tolerant pines, able to live with less than 200mm per year.

Measurements: 04/1984
