## Statement of Significance

Last updated on - June 10, 2004

Horticultural value  
Contribution to landscape of historic garden  
Rare or localised  
Outstanding example of species

This is an outstanding example of this South African acacia; one of the most widespread species in Africa. In its native state the tree may grow to a height of 15metres. This is the best example of only three known specimens in cultivation in Victoria. Other examples in the Royal Botanic Gardens and Lake Waroona, Bendigo.

2004 Species placed on noxious weed list

### **2012 Tree removed**
