Statement of Significance

Last updated on - June 10, 2004

Contribution to landscape.

Outstanding size

Outstanding example of species

This specimen tree, located next to the clubhouse, is a remnant of former Forests Commission plantation located on the site and since cleared. It is now a striking feature in the landscape, standing out in open space and visible from quite a distance.

Found in the coastal areas of California, this species includes the tallest trees living now on Earth, reaching up to 115.5 metres and can live as long as 1200-1800 years.

Measurements: 22/02/1991

Spread (m): 11.4

Girth (m): 4

Height (m): 43

Estimated Age (yrs): 68

Condition: Good

Measurements: 06/01/2011
