Statement of Significance

Last updated on - June 16, 2008

Contribution to the landscape of historic garden
Outstanding example of species

Located at Anzac Hostel, 'Kamesburgh', this attractive specimen is unusual in cultivation in Victoria. *Macadamia integrifolia* is a rainforest species endemic to Queensland. It is also known as the smooth-shelled macadamia, bush nut, nut oak, Queensland nut, Bauple nut or bopple nut. Macadamia, like banksias, waratahs and grevilleas, are members of the Proteaceae family.

Measurements: 06/1982
