Location

Moore Street, east side of football ground,, CRESWICK VIC 3363 - Property No T11520

Municipality

HEPBURN SHIRE

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 11, 2004

Rare or Localised

Outstanding Size

The largest example of its species rare in Victoria, this tree exhibits a particularly large trunk size. The only known other examples occur at Creswick Forestry School and the Royal Botanic Gardens, Melbourne. A native of western U.S.A. the tree is similar to *Pinus ponderosa* but the cones are larger and the bark brown to red-brown. This tree looks untidy which appears to be a characteristic of the species
