
Tilia x europaea

T11532 Tilia x europaea

Location

Wombat Street, DAYLESFORD VIC 3460 - Property No T11532

Municipality

HEPBURN SHIRE

Level of significance

Regional

Heritage Listing

National Trust

Statement of Significance

Last updated on - June 16, 2008

Location or Context: Historic planting style.

Spacing between trees 8.4m. An attractive street planting of Linden trees. This is the only known example of this species used as street trees in Victoria, although they are commonly used in Europe. The trees on the east side have been crown-reduced and are stressed, possibly due to vehicle compaction. The avenue forms an attractive entrance to the Botanic Gardens at Daylesford. Another example of 31 trees occurs as a row along the western edge to Victoria Park

Measurements: 27/09/1988

Spread (m): 14.8

Girth (m): 1.88

Height (m): 13

Estimated Age (yrs): 80
Condition: Good

Access: Unrestricted
Classified: 17/11/1988
