National Trust

Statement of Significance

Last updated on - June 11, 2004

Location or Context: important landmark

Particularly old

Outstanding Size: height x circumference x spread

Outstanding Example of Species

A magnificent River Red Gum commonly referred to as 'Old Be-al', and one of the best known trees in Victoria. This isolated specimen is growing in sandy soil and is surrounded by a deep litter of leaves. The tree is in excellent condition considering its location in an extremely harsh environment. It is located 1 km North-West of Lake Jerriwirrup.

Measurements: 14/10/1981
Spread (m): 99.0 (circumference)
Circumference(m): 0.58(at 1.4m above ground)
Height (m): 21.7
Estimated Age (yrs): 400
Condition: Good

Access: Restricted
Classified: 04/01/1982

Other Names River Red Gum, Old Be-al,

Hermes Number 71037

Property Number
